

Code-Layout, Readability and Reusability

Date	03 July 2026
Team ID	S W TID-2 026-8 076
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code.	Yes	Proper indentation maintained
2	Proper File Structure	Files and folders are logically organized	Yes	Separate folders for dataset, model, templates, static files
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Descriptive variable names used
4	Function / Method Names	Functions are descriptively named	Yes	Easy to understand and maintain
5	Code Comments	Inline and block comments explain logic	Yes	Important sections documented
6	Modular Design	Code is split into reusable functions/modules	Yes	Separate preprocessing, training, prediction modules
7	No Redundant Code	Duplicate or unused code is removed	Yes	Optimized implementation
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Input validation and exception handling included

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
------	-------------------------	-----------------------	--------------	---

1		Python, Pandas	Data Cleaning	High
2	Feature Encoding	Scikit-learn	Data Preprocessing	High
3	Feature Scaling	Scikit-learn	Prediction	High
4	ML Prediction Model	Scikit-learn	Credit Card Prediction	High
5	Flask Web Application	Flask	User Interface	High
6	HTML Templates	HTML/CSS	Web Pages	High

Aspect	Rating	Comments
Code Layout & Structure	5	Well-organized project structure
Readability	5	Easy to understand and maintain
Reusability	5	Reusable ML modules
Documentation	5	Proper comments provided
Overall Score	5/5/2026	High-quality and maintainable project
