

Brainstorming & Idea Prioritization Template

Date	02 July 2026
Team ID	SWTID-2026-8076
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Kodirekka Sangeeth Babu	Collect applicant and credit card application dataset	Dataset Collection	1
2	Kodirekka Sangeeth Babu	Perform data preprocessing and feature engineering	Data Preprocessing	1
3	Kodirekka Sangeeth Babu	Train the Random Forest model for credit card approval prediction	Model Training	2
4	Aragonda Indra	Develop the Flask web interface for user input and prediction	Web Application	2
5	Aragonda Indra	Evaluate the model using Accuracy, Precision, Recall and F1-Score	Model Evaluation	2
6	Aragonda Indra	Deploy the credit card approval prediction system	Model Deployment	2

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Brainstorming & Idea Prioritization Template

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Use applicant financial and personal data to predict credit card approval status.	High	High	1	Yes
2	Build and compare multiple machine learning classification models for the best prediction accuracy.	High	High	2	Yes
3	Create a simple user interface/dashboard for entering applicant details and displaying predictions.	Medium	Medium	2	Yes
